THE ENROLLMENT.

Among the large number of Shasman's supporters, who, when the draft was talked of, rushed to the office of the British Gonan to claim protection as British subjects, the swearing, yesterday, was loud and deep. Most of these mea were accustomed to regular voting—to voting early, late and often; and now to have in prospect an enrolling officer at the polls, to but know their names as militia men subject to draft, as their ballots are est danger to the country. The rebels first polls, to but know their names as militia men subject to draft, as their ballots are deposited in the box, is cause for astonishing explosions of impotent wrath. But who will dare say that the precaution is not necessary and just? The country is struggling for its very existence; and those who desire to control its internal policy, must show also their willingness to go to the field for the maintenance of its internal security. If British subjects, they are not voters, if voters, they are subject to the laws which prescribe the duties of chitzens. This is clear, and in the action of the Governor there can be no just cause of complaint. AN IGNORAMUS.

case accounts, would he go up to Bridewell and pick him out of the petty thieves with which that place is thronged? We ak—would he?

The answer in each case is, obviously, No! Then, if the people of Cook county want to elect a man to Congress who is undeniably loyal, to watch, foster and protect the interests of the Union, which are their interests, why should they go among the accessionists to find him? Why should they take that kind of an Union man for whom every secessionist in Cook county will vote?

Mr. Sherman was supported for the nomination by the secession wing of the Democracy, against Mr. John M. Douglas, whose loyalty is of another stripe. He was carried through the nominating convention by the men who picked him out to serve their purposes. His cause is now advocated by all the secessionists in the district; and if elected, he will be a nose of wax in their hards. What can be Unioned to the care with the secessionists in the district; and if elected, he will be a nose of wax in their hards.

OUR DEFROIT LETTER

Will you permit me to say a few more "last words" to those Republicans in this State whom the Trustras may reach before our election, rather by the way of encouragement than for reproof? I wish to acquire them, in the first place, that the Union game is literally played out, gone up, exploded. There is more so poor as to it reverence. Even Democrats, except the few reckless demagogues who started and are ranning the machine, admit that the thing is a failure, and concede the election of Blair by \$0.00 majority. The State ticket is given up in despair. But they still cling desperately to the majority. The State taket is given up in de-spair. But they still cling desperately to the hope of securing the legislature, and thus de-feating the re-election of Mr. Chandler. This is the main object for which the "Union" frand was conceived, and it is like surrender-ing "the first-born" to abanden this cher-ished ides. But they must give it up. Is all

human probability they will have to submit for six years more to a "radicat" Republican Senator for six years more. The great reliance of the few tories who are abeliow enough to believe, or dishonest enough to claim, without believing, that this State will indirectly endorse the policy of Vallandigham, Bob McCleiland, Jeff, Davis & Co., is upon Wayne county. There they are sure of a tremendous majority-1,500, 2,000, or any amount that circumstances require. This county is used all over the State to or any amount that cremanances require.
This county is used all over the State to keep up the courage of the despondent. But they will slip up. Wayne county and even Detroit will fail the tories. The Republican neither will give Davis and his allies any aid or comfort. Unless all signs tail Detroit will elect five members of the legislature, and the rest of the county will elect two out of four in the balance of the county, and two out of the three senators apportioned to Wayne—leaving the tories only two members and one senator—even the whole Republican county taket. If any Republican county taket, If any Republican county taket if any Republican county taket. If any Republican county taket is a first the two county is going to prove faise to freed the occurrence of the state have been lead to be lieve that our county is going to prove faise to freed the up of the state have been lead to be lieve that our county is going to prove faise to freed in please undeceive them. Our tory allies of the rebels affect to believe that the elections in Onlo and Indiana will have a mighty influence in this

nents have.

I infer from Parson Brownlow's speech in your city, that the reputation of your cotemporary of the tory Times is beginning to be as well understood in Calcago as it is here. At

to reply to the article in question, for I consider it an insult to the coldiers. It have taken the pains to ascertain how the article in question is regarded in the Lead Mine regiment, by officers, as well as men, and they unanimously condemn it. I have also shown it to persons belonging to other regiments, and they proneunce it an insult to the soldiers. The thing was dicitated to the reporter of the Times, probably to carry favor, by a man who calls himself an "old line" Democrats, but who voted for Mr. Lincole, and upholds the Republican principles yet, while he curse the Times every day.

I claim to have been with the heroes of Donelson, of Shiloh, and the recent hard fought battless of this part of the country, and I can satily say, that even with those who were Democrats, the Republican principles have been almost manimously adopted. The fact is to a palpable to be denied, that the old Democratic party is no more. That which cails at the present time, and endeavors to pass for the "old line" Democratic party, is nothing but tories, are secesh as heart and only wait an opportunity to show themselves such. The rebals in this part of the character of the Chicago Times.

I recollect hearing a secessionist say, "I don't know what you soldiers think of the Times, but we consider it a very good secess paper." To use the language of the article referred to above: "The contrast that I would draw between the Democratic Tory party and the rebels is, that they are like unto two horse thieves—the one has stolen a horse and the other a mare. The one that has stolen the horse is convicted, while the other—the laformant not having taken the presention to any mare instead of horse—is released, at the same time being as guilty of thest as the other."

It is a fact that cannot be denied, that many who were Democrate have been Republi-

other."
It is a fact that cannot be denied, that many who were Democrate have become Republi-case; and among the number is the boson frield of the reporter of the Chicago Traes, the very man who dictated to the Times' man the article that appeared in that paper on the 356 anst. the srticle that appeared in that payd and.
The only men I have yet seen in the army who don't like the president's proclamation are two Democrats who belong to this regiment (the 45th.) The soldiers rejoiced when that proclamation was based. They knew that proclamation was based. They knew that proclamation was based. that proclamation was issued, then that the very marrow of the rebellion had been touched. Even the man who dictated to the Times reporter, told me, with his own ign, that "he now felt that we had a policy to go by—semething to fight for." And so have and if any of the Tory Democrats who was and if any of the Tory Democrats who place. In conclusion, let me say that, knowing the men well who dictated the article for the Twee, I can safely say, and prose, that he has talked to many a negro, telling him to leare his master and go North. The next time he

tates for the Chicago Times, let him not de-ive the editor of that Tory sheet and insult e old 45th by intimating that the Times is a

end leaves a wife and two children to mourn his loss. He was an homest and respectable citizen highly esteemed by all who kasw him. Calvin DeWolf, esq., acting Coroner, held an inquest upon the body of the deceased yesterday, at which as thorough an investigation into the dreumstances as possible was made. The jury returned a verticit has the deceased came to his death from two wounds in the breast and side inflicted by one ar more soldiers whose names, companies are means and that the city anthorities are in famil in not furnishing police to protect the citizens in that part of the city, south of Ringgold place.

The only probable theory connected with this mysterious murder, is as follows: During the evening several citizens had been stacked by soldiers for various causes. Several rows had taken place, and the Avenue-was the scene of violence, for the quelling of which there seemed to be no adequate means. One squad of soldiers were especially violent, and threatened a terrible revening sajants some person or persons with whom they had had a difficulty. Schrucker, who was the compasion of the doceased prior to the murder, teatified to this fact, and as the murder took place shortly after he laft the decessed, it is evident that the soldiers mistook him for the one they were looking after.

The colonel is a prominent lawyer of Water's town, Jefferson county, and has been a member of the State Senate. When the last call was made he obtained a recruiting commission and began using a company. While addressing a crowd and urging calistiments one highly, some one called out that it was all very well jor him to go with a commission, but it was very different for men to enlist in the ranks. He thereupon tore up his commission, signed the muster roll on

up his commission, signod the muster roll on an equality with others and bid them follow him. He had excellent success in raising men, and his spirit and qualifications were so well tested that he was tendered a colonelcy. He has devoted himself to his work most constantly, and has already demonstrated that he will make a first class officer. It's men are already nuch statehed to him. On Norday, the Sd Instant, the Board of Trade will hold an election for a first Vice-President and two directors.

Two of the vacancies occurred in consequence of the resignation of Meers. Dow and McLennan, who, with the majority of the directira, were opposed to making it compalsory on the members to charge certain raises of commission. The election will therefore probably farm on this question, and it is likely that those who are opposed to the compalsory policy will vote to rearm the above geniemes; to office again; while those who are in favor of it will vote for new mea, who will represent their sentiments in the Board.

We trust that every member will vote, and thus settle this natior at once.
